Hi Veron,

Kindly wrote this,

I read the report and base on my finding, the vehicle ^{was} ~~sustained~~ badly damage and was charred due to fire. I did took photos on both side front, internally and externally front portion as well as undercarriage. I did not took more photos on the rear portion, accept only 1. It seems rear portion was not affected by the fire.

Reg Photos in GIA is same as damage seen on-site and also at time of on inspection.

Best Regards,
