Brief Details.

I have videos and photos available of the accident.

My car was parked at deck 3A of 184 carpark at 184 Rivervale Crescent S(540184). I went to my car at 11am on 9 October 2021 to find the front of my car badly damaged and a huge puddle of unknown liquid on the ground. I have retrieved the video footage of the van parking and exiting which caused the damage. Accident happened at 7.46pm on 8 October 2021.

Vehicle number for the van that hit my car is GBD1345D. The vehicle stopped for a moment after hitting my car and sped off hurriedly as can be heard by the loud exhaust noise in the video. No attempt to dismount and check the vehicle or to leave a contact method.

The video footage of the accident was not very clear so the number plate is blur. I have another video which is of the said vehicle reversing into the lot at 6.08pm, 1 hour before the accident. The rear of the vehicle at 6.08pm is the same as the vehicle which caused the accident. Silver van with long yellow plate with a black frame.

I have since checked my car and found numerous problems arising from this accident.

Front bumper scratched

Front headlight scratched

Left and right headlight holder cracked

Wiper liquid low

Driving stabilisation warning

I will be going to the workshop to check as I'm afraid the radiator and intercooler could be
