CONTINUATION OF REPORT

Brief Details.

I was driving along North Bridge Road heading towards the CBD area at about 815am today. While almost completing the crossing of the junction between North Bridge Road and High Street, I suddenly felt a huge bang/crash and all my airbags were deployed. It was only then I realised that I have collided with another vehicle. I would like to state that I am very certain that I have the right of way as it was a 'Green Light' and the collision was unexpected. The other vehicle (registered SLV2057R), seem to have beat the red light on his end which resulted in this collision. This happened very quickly and I had no time to react or respond. I am also travelling below the speed limit.

I do not have a in-car camera in my car however, the traffic police officers which attended to the scene had assure me that the CCTV facing the accident site from buildings nearby will aid in this investigation. The other vehicle has an in-car camera and the SD card was seized by the officers on site. There were several witnesses in the vicinity and they had also left their details with the officers on site.
