I was sending my son (Raphael Lee Sheng T1525918D) to school at 715am on 13 Jan 2022 morning. While queuing up to drive in, we suddenly smelt burnt rubber and start to see smoke coming out from the aircon vent in the car. Raphael immediately went out of the car with his school bag and I stopped the engine and on the hazard light and contacted my husband for help. I decided to send my son into school first and upon coming out from the school, I noted that more and more smoke from the car. I quickly retrieved my laptop and a day-to-day bag from the passenger seat. I tried to open the glove compartment to retrieve my wallet but it was too smoky. I called for help to get the school to get a fire extinguisher. At the same time, I also called 995 as I'm afraid the vehicle might explode with the many cars on the road
