Brief Details.

On 14/2/2022 at about 0930hrs, I was driving my vehicle SMN9612Y along ECP towards KPE. Upon reaching the KPE tunnel entrance, I noticed a vehicle SMQ1004P driving beside me, and we were at the 2 lane road before reaching the merging lane. However, the other vehicle suddenly came into my lane without signaling and side swiped with my vehicle. I tried to horn him before he came into my lane however he failed and knocked onto me.

I tried to signal him for him to stop however he did not do so. I exited KPE to enter PIE and I stopped at the chevron markings to make a check. I discovered the body of the car above the left front tyre have scratches. I am uninjured. I have contacted my rental company and my rental company informed me to lodge a police report first. I am unsure on the estimated cost of damage as I have yet to go to the workshop.

I wish to state that I do have an in-car camera that recorded the entire incident.
