Brief Details.

I was riding my motorcycle along Sembawang Road (from Woodlands heading to my home at Blk 834 Yishun St 81) just passing the junction with Yishun Ave 5 (near Yishun Blk 701C) at a speed of 60-65km/hr, along the left most lane. I had safely passed that junction but soon I felt something hit me hard from the left rear of my motorcycle. I lost control of the vehicle and was flung off. There was momentary lost of consciousness, for a few seconds at least. When I regained consciousness, I saw 2-3 passers-by picking up my motorcycle (I managed to tell them it's a heavy motorcycle) and park it at the side of the road. I saw a silver Hyundai car parked right behind where I was knocked down. I felt pain over my right knee, left shoulder and left side of my chest but was still able to snap some photos of both vehicles. The Indian lady who was the driver of the silver car told me, "I thought you had rode pass already". Exchange of particulars was done with the help of an eye witness, Brian, as I was in pain, having sustained multiple abrasions and left sided chest pain. No ambulance or police arrived...as I believe nobody called for them. After about 10-15mins the Indian lady Ms Kanitha D/O Jagatheson was joined by 2 Indian men. I believe they were her

family members. They left the site after about 20-30mins. I waited at the site with a Brian (passerby) for a tow truck for the next 1 hour or so. When a cargo van, driven by my nephew, arrived at the scene, I asked him to send me to A&E Dept, KTPH as the pain was at my chest was becoming unbearable. I left the scene, leaving the motorcycle behind as Brian said the tow truck which he called is on its way there soon. In the hospital, X-rays and CT scans were done and found that I sustained 5 fractured ribs (3rd to 7th left ribs) and pneumotorrax apart from the multiple abrasions over both my knees and left elbow. That's all.

57y (02-Sep-1964) / Male

Subject: Memo to OPS

Dear colleague,

Thank you so much for reviewing this patient who is admitted for RTA (motorcyclist hit by car).

His injuries list are as follows:

- 1) Left 3-7th rib fractures
- 2) Left apical occult pneumothorax
> stable on serial XRs, pt asymptomatic
- 3) Abrasions over Right and left knee and left elbow abrasion

Chronic medications:

Aspirin 100mg OM
Atorvastatin 40mg ON
Enalapril PO 5mg BD
Metformin 400mg BD
Bisoprolol 1.25mg OM

We have held off his aspirin since admission in view of his injuries and bleeding risk. We would greatly appreciate it if you could consider restarting his aspirin.

Thank You!

Kind Regards,

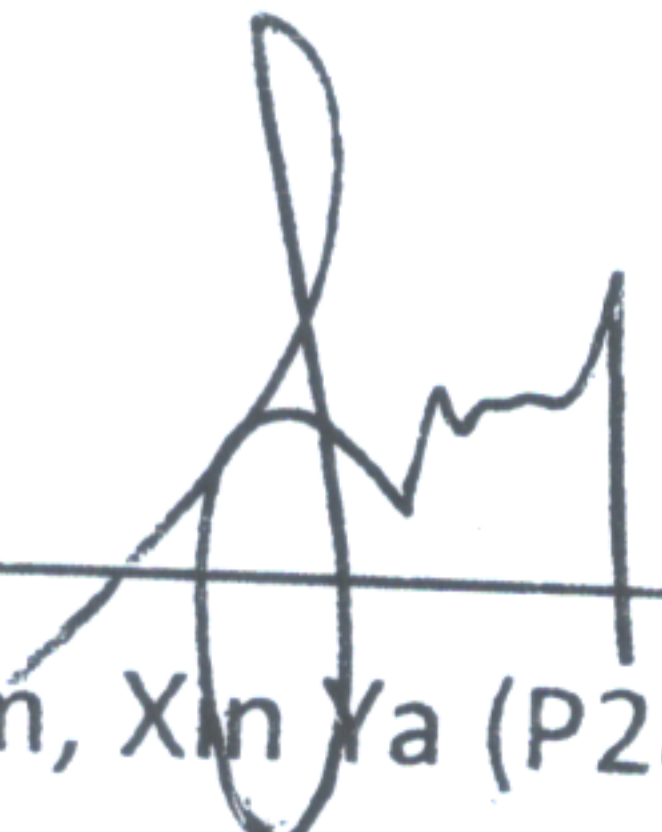

Lim Xin Ya
House Officer
