Report No. T/20220216/7013

CONTINUATION OF REPORT

Brief Details.

On 15th February 2022, I was involved in a traffic road accident on the PIE highway where my car (SJT6195H) was hit from the back by another vehicle (GBJ4361E). I was on my way to a finance company to hand over and do the transfer of my vehicle to another buyer who have purchased my car.

At about 5.20 pm, I was entering PIE (Kallang Bahru) and when I was about to enter the merging lane, there was heavy traffic up ahead. The vehicle in front of me was slowing down and then put on his brake to a stop. I have to slow down initially and then put on my brakes to stop my car when the vehicle in front stops. There was NO emergency brake applied from me. Out of a sudden, I heard a loud bang crashing on my car. My wife and I were very shocked and traumatized. Looking through my rear window, I realized a van has hit my car from behind.

I suffered a sudden back pain immediately when I was about to open my driver's door to check on my rear vehicle. My vehicle suffered damage to the rear bumper, boot (rear door). I then took photos of the accident and exchanged particulars with the other driver (GBJ4361E). The driver is of China nationality and he cannot understand my conversation as he does not understand English.

After exchanging particulars, I then proceed to inform my car buyer over the phone and then the purchase of my car was canceled due to an accident.

My wife (passenger - Siti Rahmah) suffered neck and stomach pain while I suffered from acute back pain. We then proceed to the 24hrs clinic in Marine Parade as most of the clinics have already closed. Not feasible to go to A&E due to max. full-day waiting time and Covid situation. After seeing the clinic doctor, we were given 3 days MC, some medications, and referrals to the Poly for the x-ray to be done.

I used to suffer from spinal disc degeneration and had fully recovered but this accident has made it worst again.

The traffic accident was recorded on my vehicle dashcam. Upon analyzing the recorded video, I realized that the driver (GBJ4361E) failed to keep a proper lookout in front of his car before crashing onto my car. In the video way before entering the merging lane, he was looking on the right side of his window, and hence when the traffic in front of him stops, he failed to brake on time.
