Brief Details:

On 7 March 2022 around 0830hrs, I was driving along AYE towards Tuas before Corporation flyover on the left most lane. I was keeping a 2 car distance from the lorry (GBF 8498U) in front of me when the lorry in front brake hard due to another accident in front. I reacted and applied brake and stop my vehicle to a complete stop when the lorry (YQ3408C) rear end me. The impact is so strong that my car was pushed and rear end the lorry in front of me and my car was push to next lane. I called 999 hotline for assistance as 2 lane out of 3 was taken up, both police and ambulances was activated to site as the driver of the lorry behind feedback his leg was in pain. At the point of time I only have slight aching pain on my neck, shoulder and lower back due to the impact therefore I did not seek paramedic assistance. After my car was towed out of AYE by EMAS while I was waiting for my own tow truck, my neck and lower back started to feel painful. After my car was being towed to workshop I made my way to NUH A&E to seek medical attention whereby X-ray was done on my neck, shoulder and lower back. The duty doctor after assessing me issue me with a 4 day
