<p>On the 1st of March 2022, I brought OV, 356A CAVI, out for vehicle familiarisation for his second location, Sungai Bedong Camp, at 16.15 hrs. As we joined MUTE, it started to raining heavily. So I had planned in my mind to stop at Sungai Bedong Camp to wait for the rain to stop. There were a few splitting lane and merging lanes so I told the driver to choose the left lane if it splits. As soon as we were approaching the bus stop, I noticed the vehicle was swaying towards the left so I asked him to counter back by turning back to right. The vehicle wasn't going back to the right. So I repeatedly ask to move to the right but not in time. So the vehicle mounted the floor of the bus stop. The driver swerve the vehicle hard right, trying to avoid the bus stop. The vehicle kept bouncing. The driver couldn't control the vehicle and I saw him trying to counter back but the vehicle was moving to the direction of the vehicles on the opp lane. The vehicle collided to the rear right of a civilian vehicle which pushes our vehicle back to our lane. then our vehicle come to a stop.</p>

Brief Details.

On the above mentioned date, time and location, I was driving my SAF vehicle for the vehicle familiarization. It was raining and the floor was wet. I did not realized that my vehicle is drifting slightly to the left until my vehicle commander alerted me. I then subsequently, mounted the curb and realized that I had lost control of my vehicle. I then tried to readjust by going right and I realized that I was moving towards the oncoming vehicle. I then tried to readjust however, I was too late as the front right bumper of my vehicle had hit the right hand rear of the oncoming vehicle.

I wish to state that no parties were injured and no ambulance was needed. I also did not call for any police assistance. Both vehicle had slight damages. I wish to state that the side curb did not have any damages.
