**CONTINUATION OF REPORT**

**Brief Details.**

On 13/03/2022 at 2045hrs I was travelling along River Valley Road towards Delta Road together with my wife and my helper in my vehicle. We were near to Yong Ann Park. My vehicle bearing plate number EU380H a copper in color Mercedes.

The traffic light was red as such I was stationary. There was a vehicle in front of me bearing plate number SGD4799Z.

The traffic light was green and I moved off however the vehicle in front move to left more and did not want to move after which. As such I moved off on the same lane as there were other cars behind us. My wife then gestured to the driver of the car in front of us earlier that there was nothing that happened.

On the 15/03/2022 I received an email from the insurance company about a hit and run case from the car in front of us on the 13/03/2022. My wife then took the photo of my car and there were no damages to it.

Subsequently we received a letter from traffic police ref TP/IP/05959/2022 to lodge a report for the incident. I wish to state that I do have an in car camera however I am unsure whether there is the footage still.
