S\$1,000

-performance/

Pre-loved with extremely low mileage.
Bike is a local purchase and authentic
(with serial number) Height reference @
170Cm

ultegra 6800 shifting
trp mechanical + hydraulic brakes

I have maintained this bike thoroughly, and
I can say it's one of the most
well-maintained bikes in the market. I'm
selling because bike dosent fit me well,
reluctant sale. More comfortable than gtr
model.

Bike is still on original factory tyres
mileage <2000km. full carbon, with
aluminium training wheels sitting at 8.7Kg.
Can easily upgrade wheels and push for
the performance gain. Regardless, bike
easily keeps up if you have a decent
engine 🤔

full maintenance done before bike is
listed! (April)

1. Ultrasonic clean (FD, RD, FB, RB, chain,
cassette)

S\$1,000

Accessories will be removed. (wahoo mount, pedals)

Price listed is without ultegra power meter crank, with FC crank in last pic. (top up \$400 for pwm)

I have more to describe about the bike.
Non-obligatory viewing. View to believe.
Safe riding! 😊

clickbait price.
original price of bike: SGD \$4628
selling at: SGD \$2800 only
lowballers not entertained!

Viewing at your location can be arranged
@ \$50 deposit

not: wilier triestina gtr, rim brake, 105,
giant, cervelo, cannondale, trek, merida,
canyon
