SKETCH PLAN

DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

On 31/3/22 at around 1.40pm I entered the KPE tunnel from Pit (Tues). I was on the way to the city house I stopped on my lane going towards Eel (city). A truck was travelling in the next lane and as I was driving metal scraps from the truck fell to the road and hit my car but the driver was not aware. There were several metal (rusted) bars (#) continue to fall when it hit my car the impact caused the airbags in the bonnet to activate and because of this the bonnet was opened and the warning lights in my dashboard flashed the hazard lights also started to blink. I saw the truck proceeding towards MCE, so I signalled and followed the truck before signalling to the right and drove alongside the truck and handed him to stop. I overtook the truck and stopped at a distance and he followed me and stop behind my car. I then informed him of what happened. He climbed on top of his truck and adjusted the metal pieces. I took down his particulars and spoke to his Base on the hi. I tried calling Ems Tunnel emergency but was not successful. I called 911 but also no reply. It was very noisy in the tunnel and I can hardly hear anything on the hi. It was dangerous in the tunnel as there were many heavy vehicles that drove past. I was fearful for my safety and decided to slowly drive out of the tunnel onto Central Boulevard (Main) and stopped my car at Knapport 94F and called a tow truck to tow my car to my workshop. I later called the driver's base and asked for his vehicle

DECLARATION

I/We declare the foregoing particulars are true in every respect. ~~insurance~~ company. He informed me on WA that is was AXA.
