Dear Sirs,

Through: Head, Acute and Emergency Care Centre, Khoo Teck Puat Hospital,

**NAME : DANISH AMANI B SUBTU
NRIC NO : T0002066J**

The above mentioned patient was seen on 19th July 2021 at the Acute and Emergency Care Centre of Khoo Teck Puat Hospital. He was attended to by Dr Thomas Timothy Iype.

Patient was involved in a road traffic accident the day prior. He was a motorcyclist and claimed that a taxi had cut in front of him. He subsequently flung forwards. He was complaining of pain over his left wrist, right elbow, right groin and lower back.

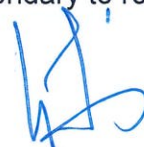

On examination, he was alert and comfortable. There was no head or facial injury wound noted. There was no spinal tenderness on palpation. He was tender to palpate over his right elbow and left wrist, and he had normal range of movement of these joints. He was also tender over his right inner thigh.

Xrays of his right elbow, left wrist, lumbar spine, right hip and pelvis did not show any acute pathology. He was eventually discharged with advice, drug prescription and 4 days of medical leave certification.

Impression: Contusion of left wrist, right elbow and right thigh secondary to road traffic accident.
