Report on Accident on Tuesday 24/5/2022

I was driving on the middle lane (SKJ5963E) along Woodlands Road towards Woodlands in the afternoon of Tuesday, 24 May. It was a sunny day. At about 2.13pm shortly after crossing the 10th Mile Junction/Choa Chu Kang flyover, I noticed that the car in front was slowing down, I too also slowed down (around 30km/hr) and kept a safe distance from the car in front. All of a sudden, a white BMW car (SKT6717R) speeded from the back (appeared to be from left lane) and knocked on the left rear side of my car. The impact was so forceful that I couldn't react on time to stop my car. As a result of the impact, my car rushed forward and it hit on the rear of the car in front of me (SIN4374C) before it came to a stop. As a result, the car in front of my car also rushed forward and knocked on another car (SIH5362L) producing minor damage. The exact location of the accident was just after Bt Panjang Telephone Exchange and outside West View Primary School, just before the pedestrian bridge. The slowing down of the vehicles in front was due to a breakdown of a small lorry in the middle of the road, just below the pedestrian bridge. Both the front and rear of my car was damaged. The rear of my car (left side) was badly damaged and part of the fallen piece (underneath plastic part of the rear bumper) was touching the tyre (causing friction) when I tried to drive my car to the side of the road. I had to use force to pull it out so that it no longer touched the tyre so that I could drive home. The piece is still there but no longer touching the tyre. The car trunk is also unable to close properly.
