Brief Details.

On the 30 August 2021, Monday, I visited the Kim Yan (Ji Shi Ling) Temple in the afternoon at around 3+pm. I parked my vehicle (SBP1133K) at the basement car park. On leaving the temple at just after 4pm., I started the engine of my vehicle and felt the engine behaved quite unusually but I cannot explain the strangeness. I exited the temple's basement car park and recall vividly that I may have already crashed through the car park barrier. Thereafter my vehicle exited and drove towards Martin Place. Upon reaching the turn from Kim Yan Road toward Martin Place (a downhill narrow road with many cars parked along the road), I sensed the car was behaving very strangely with engine raving to charge forward. Upon turning into Martin Place from Kim Yan Road, the car just suddenly sped up with tremendous and yet inexplicable force and moved increasingly at very fast speed by itself. I tried stepping hard on the brakes but could not bring the car under control and the car kept going at very fast speed to the extent that I felt the car wheels were not even on the surface of the road. I did not accelerate and keep trying to jam the brake as hard as I can but the vehicle was just out of control until I heard a very loud bang when the car collided into a lamp post and continued to collide against a couple of trees before it came to a complete stop.

I was conscious but in excruciating pain and totally shocked and traumatized. Bystanders gathered and a couple of them came over and helped me out of the car as the engine was emitting smokes. Ambulance was called by a bystander and arrived in about 15 minutes together with SCDF. I was in extreme pain and when ambulance arrived, I was immediately taken by the ambulance to SGH A&E department and undergone x-rays, scans and undergone emergency treatment at A&E and awaiting to be moved to HDU ward thereafter. I was told I suffered fracture of rib bones, fracture on my upper left arm and 2 cracked Vertebrae (L1 and T12) at spine/lumber area. X-ray and scan also show that one Aorta and two minor blood vessels leading to my heart were injured by the impact of the accident and

bled.

On the 5 September 2021, I was operated on both the spine and left arm by SGH's consultant surgeon Dr. Reuben Soh and Dr Christ Sng and their team. 2 days after the surgery, I was discharged at my request on the 8th September 2021. As my both hands are badly bruised and swollen, I have no opportunity to file a police report any earlier. I was told to rest and do gradual physio myself and to return to SGH for a review/checkup on the 20th September 2021.

I was subsequently told that the Traffic Police had towed my car to TP compound for investigation. Till this day, I am still in shock, traumatized and cannot explain how and why the car could accelerated itself at such high speed and this is the strangest and most scary experience I have ever encountered.

I was subsequently told that the Traffic Police had towed my car to TP compound for investigation.

As my mobility is impaired, I was unable file police report earlier and unable to ascertain if there were victims of the accident and the extent of damage caused to any of the public properties by the accident.
