### Brief Details.

On the stated date and time, I was driving SJM6124A along Braddell Road towards CTE.

My children, Devina Laxmi, who was the rear right passenger, and Kavin Kumar, who was sitting in his baby seat, were on board my vehicle. All three of us were belted.

I was gradually coming to a stop due to traffic conditions and was speaking to my daughter, who was leaning forward to talk to me, at that time.

Before I could come to a complete stop, a massive impact slammed into my vehicle's rear, catching me completely off guard.

My body lurched forward due to the unexpected impact only to be restrained by my seat belt.

My daughter's forehead knocked against the back of the head rest of my driver's seat as a result of the impact while my son started crying after knocking his head against the side of his baby chair.

Upon alighting, I realised that SMT9564X had smashed the rear of my vehicle, leaving it badly dented.

Shortly after the accident, I started experiencing soreness and aches in my neck and lower back areas.

My daughter also complained of pain in her neck on top of her forehead she had knocked earlier.

As such, we went to Mount Alvernia Hospital, which was near our home, to seek treatment the same evening.

All three of us were given 5 days MC each for injuries caused by the accident.
