Brief Details.

On 25/08/2022, at around 0735hrs, I was driving along Loyang Drive (outside ST Microelectronics) when suddenly a cyclist popped out from the side road. I horned multiple times but he did not hear me. I swerved my vehicle to the right but I still hit him. He did not hear my horns as he was wearing earbuds and did not see my vehicle coming his way. After hitting him, I went down to to help him and called for the ambulance. I was also attended by Traffic Police (G/20220825/0047) and they seized my vehicle's in-car camera SD card. I did not manage to get the cyclist's details as I did not see him anymore after he entered the ambulance. The accident caused a big spiral crack on my lorry's windshield and my front bumper is badly damaged. My passenger and I were not injured during the accident. I am lodging a report for insurance purposes.

I had an eye-witness for the accident, below are his details.
