Brief Details.

On the stated date and time, I was driving SJG5389R along Lentor Ave towards AMK Ave 6.

There was an accident ahead and as such, the vehicle in front of mine came to a stop.

Fortunately, I had kept ample safety distance between myself and the vehicle in front.

As such, I was able to gradually come to a stop.

However, moments later, a massive impact slammed into the rear of my vehicle causing it to jerk violently forward.

My body lurched forward only to be restrained by my seat belt.

Upon alighting, I realised that I was hit from the rear by YP9586L.

Shortly after the accident, I started feeling aches in my neck, shoulders and lower back areas.

As such, I went to Victory Clinic near my workplace to seek treatment during lunch.

I was given 3 days MC.
