Brief Details.

On the 13th of August 2019 at around 1240hrs, I was driving my vehicle bearing the registration plate number JKL9741 along Bukit Timah Road and headed towards Jalan Jurong Kechil. The traffic was heavy and I was at the left most lane. The cars were moving very slowly. Suddenly, I felt a bump from my rear. I got out to check and noticed that a car bearing SKD4645L had nudged my car slightly. The front left bumper of his vehicle had collided into the rear right bumper of my vehicle. There were slight scratches on both cars. It seemed that the other driver was trying to lane change into the lane I was in. I believe that the other driver had called the ambulance and they along with the police arrived shortly after reference to J/20190813/0074. No one was conveyed by the ambulance. My passenger and I were unhurt. I am lodging report for record and insurance claims purposes.
