Brief Details.

On 29/10/2022 at about 1400hrs, I was driving (SLP3343P) along Thomson Rd towards Newton Rd, as the traffic was heavy at the point of time, before turning into Newton Rd, there was another vehicle (SMD8844D) who was trying to cut into my lane while driving. At the time, I was completing a GoJek trip reference RB-173720-9107584, from Thomson Lane to Great World City.

As I was at the filter lane towards Newton Rd, the vehicle was at my rear and subsequently, I heard a loud horn coming from my left side as such I stepped on the brakes and afterwards, the vehicle which was behind me then knocked on the rear of my vehicle.

I then stopped my vehicle and wanted to alight from the vehicle, I spotted the driver then reversed and drove off from the location.

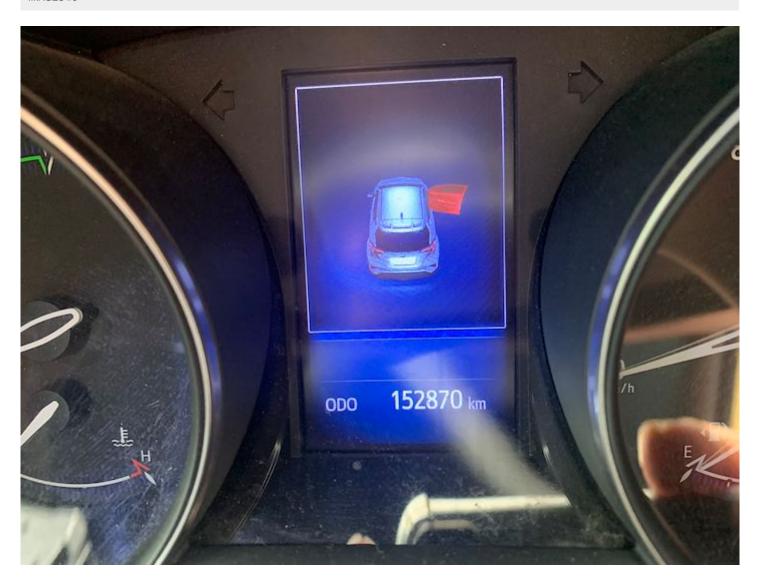

At the point of time, I have a passenger inside and made a check on the passenger and was informed that she is not injured. I made a check on my vehicle and there was a dent on the rear bumper and the center stoplight was dislodged from the bumper and dangling.

I wanted to tail the driver, but I do have a passenger in the vehicle as such I continued my journey to send the passenger to the designated location before lodging a report.

I have an in-car camera and footage was also saved in the memory card. I have yet to go to the workshop to access the damages cost and will be lodging this report for insurance claim purposes.
