<p>I, LCP SREEAVANEESH KURUP, TXXXX873B, Transport Operator of MUV vehicle (MID 46166), hereby write the following report.</p> <p>On the 30th of November 2022 at 1535hrs, I was tasked with sending out a patient from Sungei Gedong Medical Centre to Ng Teng Fong General Hospital. As I was proceeding towards the hospital at 1545hrs, I was using the PIE (KJE) express way. As I was driving through the ramp which was used to enter into the express way, my direction of focus was towards the vehicles passing by on the right, so I proceeded to look at the right side mirror to do an early check to see if it was safe to filter in. After doing so, I looked back at the road ahead and noticed that all the vehicles in front were mostly stationary. I immediately applied my brakes to avoid colliding with a motorcycle in front, I managed to brake without any collision. After a few seconds, a civilian truck rear ended my MUV. I started to look around if anyone was injured in the vehicle. Upon confirming on no serious injuries to anybody, I moved the vehicle safely to the side. At 1550hrs, I called MSG JURGEN to inform him about the incident. I went out to see the damages around the vehicle and checked with the civilian driver if they sustained any injuries. I took photos of both the vehicles and exchanged phone numbers. We waited for the commanders to arrive on scene.</p> <p>That is all I have to say.</p>

<p>I, TXXXX156C, 3SG LAI PO YU hereby declare the following statement to be true. On 301122 at 1537hrs, I was sending out my soldier PTE THOMAS LIM to NTFGH as it was suggested by the MO. at 1550hrs, the ambulance was entering the highway. The driver had to hard brake when the cars in front suddenly slowed down while he was checking his blind spots on his right, as he was preparing to merge.</p> <p>Due to this, I believe the drivers in the truck to our rear could not slow down in time, either because of 1) Slow reaction time or 2) Wet ground due to heavy rain which caused less traction. Hence resulting in the collision. That is all I have to say.</p>

Brief Details.

I was sending out a patient from Sungei Gedong Medical Center to Ng Teng Feng Genral Hospital at 1535hrs on the 30th November 2022.

At about 1545hrs, I entered the ramp up PIE(KJE) expressway. As I was proceeding in the expressway, I had to looked to my right mirror to see if it was safe to filter in. I then looked forward and saw that the vehicles in front of me were almost stationary, which made me brake immediately. I didn't collide with anyone in front. After a few seconds, I was rear ended by a civilian truck (YN7012A). I then moved to the side safely and got down to exchange particulars. The patient in my ambulance was sent to NTFGH by SCDF ambulance.

He sustained a abrasion on his right elbow from the incident, he was sent due to his original injuries.
