Brief Details.

I was moving off from traffic light towards Bishan road from Ang mo kio ave 8 on the 4th(left most) lane. As i was approaching the end of the junction, 2 cars from the slip road on my left moved out onto the 3rd and 2nd lane , both skipped the 4th lane as there was construction works going on. As i was going straight , the white BMW does not seem to slow down or stop at the slip road line and proceeded out to join the main road i was on. Only when the white BMW (skb3399p) is unable to join lane 2, due to the car on the left stopping, he jammed brake at an angle and i did not manage to stop , hitting his rear left bumper. driver of said vehicle moved his car from the original position. photos taken and provided is not as per how the position of impact was. my bike did not have any camera, however i am aware that there are a few cameras around the junction. No personal details were exchanged, i was conveyed to Tan Tock Seng Hospital in an ambulance. I suffered abrasions and swelling on my right shin, left knee, left elbow and left shoulder. And given 3 days mc.

**Brief Details.**

I was driving along Ang Mo Kio Ave 1 and turned left to Bishan Road at the junction. While driving on the middle lane of Bishan Road about 60m from the junction, a car (SLX8413X) on my left was trying to filter to my lane as the left lane was closed due to some road works. As the car was very close to my car, to avoid collusion, I slowed down my car to almost a halt. After a few seconds, I heard a bang on the rear of my car. A motorcycle (FY129K) has hit onto the left rear side of my car. The impact caused the rider to fall. He was conscious but appeared to be in pain. I called 911 for ambulance and traffic police for assistance.
