Brief Details.

I was moving off from traffic light towards Bishan road from Ang mo kio ave 8 on the 4th(left most) lane. As i was approaching the end of the junction, 2 cars from the slip road on my left moved out onto the 3rd and 2nd lane , both skipped the 4th lane as there was construction works going on. As i was going straight , the white BMW does not seem to slow down or stop at the slip road line and proceeded out to join the main road i was on. Only when the white BMW (skb3399p) is unable to join lane 2, due to the car on the left stopping, he jammed brake at an angle and i did not manage to stop , hitting his rear left bumper. driver of said vehicle moved his car from the original position. photos taken and provided is not as per how the position of impact was. my bike did not have any camera, however i am aware that there are a few cameras around the junction. No personal details were exchanged, i was conveyed to Tan Tock Seng Hospital in an ambulance. I suffered abrasions and swelling on my right shin, left knee, left elbow and left shoulder. And given 3 days mc.
