**Brief Details.**

I previously lodged a Traffic Police Report vide T/20230325/2032 and wish to add further facts and details.

On 23/03/2023 at around 2050hrs, my car bearing registration plate number SBV3113Z had some damages on the right side. I concluded that my car was involved in a hit and run accident.

I last used my car on the 23/03/2023 at about 1845hrs and noticed that everything was intact. There were no damages on the car. I had parked my car in front of my house on No.15 Second Street, along the road. However, when I wanted to use the car the following day on the 24/03/2023 at around 0750hrs, I discovered there were damages on the right side of the car. There were scratches on the front bumper on the driver side and my rims were scratched too.

When I came home from work, I made a check with my house CCTV which had recorded the accident. I discovered from the footage that a black coloured car with an unknown plate number had side swiped my car. Based on the footage, the black car wanted to squeeze past my parked car. While doing so, the unknown black car grazed my parked car causing the damages I found. There were no injuries and no government property damaged.

Later the same night, I managed to find out the plate number of the car that hit me after making a check with my neighbours based on the CCTV footage. My neighbour from No.7 Second street confirmed that the plate number of the vehicle that hit me was SLH596M. I was later informed the following day by TP IO Kareem to go to the nearest Police station to update my report.
