We refer to your email and our attachment

Your insured said that there is no collision between his car and our client's van.

Your insured said he was not involved with the accident, than why he stopped at the scene and let our client's driver take photos.

The accident was occurred , due to your insured had abruptly changed lane and towards our client's lane and van rear left fender

Our client's rear left fender was damaged.

But unfortunately , our client's van right side mirror had collided with the motorcyclist when our client's had swerved to the right side.

To avoid the collision with the vehicles infront during and that material time when your insured had abruptly changed lane.

Thank.

Best Regards,
