**Brief Details.**

On the stated date and time I vehicle FBB6655L was travelling straight along Jurong West St 61.

As I approached the X-junction, I slowed down and came to a stop as there was a stationary vehicle in front of me.

Before I came to a complete stop, a vehicle SML9139H who was on the opposite direction crashed onto the centre divider and hit onto my vehicle front right portion.

I then fell to my left and my left leg was pinned by my bike.

Some passerby then pulled me out and helped me to the side of the road.

I later realised that a taxi SHA7256H had hit onto the right rear portion of SML9139H, causing the vehicle to lost control and mounted the centre divider and thus crashed into my bike and another vehicle SLG8678M that was in front of me.

Taxi who was on the same road as me wanted to make a discretionary right turn, taxi did not wait for the traffic to clear 1st and thus hit onto SML9139H that was moving straight.

Later ambulance and TP came and I was conveyed to NTFGH A&E for treatment for my leg injuries and I was given 3 days MC.

After my discharge I start to feel pain on my neck, right rib, right hand and lower back areas.

I will be following up with a doctor soon.
