Brief Details.

On the above-mentioned date time and location, I was driving my vehicle(SNA1564L) in the lane 1 of the expressway driving at around 70km/hr. At that point of time, it was raining, and the traffic was heavy, the traffic in front of me slowed down and gradually came to a stop and I also slow down and came to a stop. Suddenly, I heard a loud bang from a few vehicles back and next moment the car behind me (SLA700R) had hit the back of my car.

I got out of my vehicle and saw a chain collision of 7 cars with another vehicle SDP26625U with a slight dent on his right front bumper parked beside the vehicle behind me (SLA700R).

I made a check on everyone involved and subsequently called for police assistance vide G/20230703/0135. I then saw and the driver of the vehicle (SDP2662U) saying something along "Since there's no injuries" and then went back into his vehicle and drove off. I did not manage to establish his particulars and I only have picture of his vehicle.

I am not fully aware of the injuries sustained by the people in the other vehicles.

The ambulance arrived shortly after and conveyed both my daughter and wife to KK hospital conscious. There were damages to all vehicles involved and the damages on my vehicle are major dent on the back of my car as well as scattered windows.

I manage to exchange particulars with drivers from vehicle SLA700R, SMP1714D, SMR4438X and that is when the Traffic Police came and took over the scene. I then handed over my Micro SD card to the Traffic Police officer who attended to me.
