<p>I, T [REDACTED] 715E, CPL TING GUANG SHENG was driving MID 21277 supporting SFLS TEWT. After the detail ended at around 1530H, I drove my 5 Ton back to Selarang camp from Pasir Ris camp. Along TPE towards Airport between exit 4 and exit 3C, I was driving at 55km/h on the third lane, when I saw road works ahead. I decided to make a lane change to the second lane. After I drove past the road works, I checked my blind spot mirror on the left to ensure the lane was safe to lane change. As I was about to lane change, I checked the left side again to ensure the lane was clear. While making a lane change, I slowed down as there were still many vehicles in front. This was when I felt an impact at my left-hand front. I realised that I came into contact and had side swiped a civilian Honda Shuttle (SMY9366A). After this, I parked my vehicle to a safe side, got down from my vehicle to check for injuries and damages before calling my superiors.</p> <p>This is all I have to say.</p>

Brief Details.

On 130723 at about 1555H, I was en route from Pasir Ris camp to selarang camp to return back to unit. I was driving an empty 5 Ton (MID21277) alone on the Third Lane along TPE towards the airport when I noticed that there were road works on the Third Lane after Exit 4.

I made a lane change to the Second Lane. While driving along the Second Lane, I attempted to make a lane change after the road work back to the Third Lane.

While lane changing onto the Third Lane, I felt an Impact on the left hand front of the 5 Ton and that was when I realised I had side swiped a civilian Honda Shuttle, License plate SMY9366A.

5Ton damage: left step ladder and left hand front signal light metal cage were scratched

Civilian vehicle: The right hand rear glass was shattered and right hand rear bumper was also dented and scratched

There were no Injuries reported.
